## Joining the TEAM Education Trust

The TEAM Education Trust has a tremendous opportunity for an experienced senior leader to join our Central Team.

This is a really exciting time to join our Trust following our launch in June 2020 - T.E.A.M. is an acronym of Together Everyone Achieves More. Working as a TEAM provides the keystone from which all our work is built. We are seeking to extend the expertise of our Central Leadership Team to cover specific skills beyond those traditionally nurtured within the education sector.

TEAM is a growing Multi Academy Trust where we place the learner at the heart of everything we do through strong collaborative partnerships. We are an inclusive Trust and we recognise and celebrate the unique contribution that each one of us can make to the positive learning outcomes of our students.

The past six months have seen rapid growth where the Central Leadership team have been responsive to Covid-19, provided extensive school support, nurtured exceptional team working, shared best practice and given operational responses. We are now at the point that we need to extend our Central Team expertise to facilitate our growth plans.

Our ideal candidate is a resilient, dedicated, hardworking specialist who can use their extensive knowledge to support us to move to the next stage of development. Your previous work experiences and training will provide evidence of this.

All senior leaders are responsible for contributing towards our collective offer, *TEAMtogether*. This offer brings together a number of school improvement and educational services to support our partner schools. If you join our Trust, your role will also be to provide coaching, training and insight for our colleagues to facilitate a deeper understanding of educational excellence, to underpin collaboration across all schools, to enable professional consistency and to facilitate higher standards of achievement within our schools.

The Trust has three schools in the Shirebrook area, one special school and two primary and also works collaboratively with other local schools across the area.

I am incredibly proud to have led the development of TEAM Education Trust working with like-minded colleagues and I am pleased to be able to offer these new posts to enable us to develop further.

If you are ambitious for children, for your colleagues and for yourself, and if you want to work with like-minded individuals who hold children at the heart of everything they do, I hope that joining the TEAM Education Trust will appeal to you.

We are a Trust who are actively seeking colleagues who understand the power of working together and who are keen to add value and impact on the lives of young people whilst keen to add direction to their own career. The TEAM needs individuals like you!

I look forward to receiving your letter of interest and application form.

Yours sincerely
